THANKS TO *YOU* PARKVIEW RESIDENTS – WE'RE A HIT! – OVER HALF OF YOU HAVE ALREADY BECOME INVOLVED! NOW MAYBE SOMETHING WILL GET DONE HERE!

Yes, we've been so absolutely **swamped** with all of your responses from all sides We couldn't have imagined in our wildest dreams that so many tenants were having this many problems and even more living here at Parkview At the time of this writing, a smidgen just over half of you tenants have responded and have taken part – much more than we ever dreamed or expected to respond. But because of the overwhelming strong tenant feelings and outright hostility of housing (Kathy Rankin & friends') retaliation, and their threats to tenants, we will not expose members' names or any information shared with us until we agree that it is time to legally act. When time permits, we will respond in writing to any interested members Future meeting times and places will be announced to certain members only.

Parkview Manor Tenants Union NEWSLETTER

AWARD WINNING

A Federally Sanctioned Newsletter – That's by and for the Tenants – Approved by ACLU – Issue #3

WHAT'S HOUSING'S ANSWER TO ALL OF THE EVER GROWING TENANT PROBLEMS - CLOSE THE PARKVIEW HOUSING OFFICE.

Housing's answer to you (the tenants) regarding all of **your troubles and problems** was to close the housing office here inside Parkview Housing always said that they would always be transparent to all the tenants' problems and needs – Just one more lie we guess, huh? Just add one more insulting slap across our tenants' faces. All of the ever growing tenant problems here at Parkview, and the ever growing reluctance to listen to **any** of our tenant issues scared them out of the building. Not only did they leave, they even had to totally blocked the office door window so that no one can even look in – Shame no all of you at housing What are you trying to hide or avoid anyways?

JOHNSON COUNTY DEVALUES PARKVIEW MANOR 12.70% IN 1 YEAR

Yep, you heard it right, the Johnson County Appraiser's office has devalued the value of Parkview Manor from $5,472,780 last year (2017) down to $4,777,570 this year (2018) a change of minus -12.70% --At this rate, Parkview will be worth nothing in less than 8 years. Why has that happened? Humanoa, we wonder? Is it because the building's falling apart – and quickly?

HOW MANY SETS OF KEYS TO YOUR DOORS ARE THERE?

Did you ever wonder just how many sets of keys to your doors there are? Think about it, there each of the housing members, with of housing maintenance, both of the tenant managers, then there the west post that't even think of having keys, the outside Parkview sources, pest control, fire department, etc. Think about it! Anyone of them from whatever source post can think of can enter your apartment whenever they want to. Many tenants have complained for years that others have entered each apartments, sometimes even when they were still within their own apartments. We want housing to limit the amount of our keys that can freely just floating around out there – and to tell us exactly who does have the keys!

HOUSING HAS TO LEARN EXACTLY WHAT ILLEGAL ENTRY IS!

There has been quite a web of what we consider illegal entry into tenants apartments on all sorts of trumped up "housing" reasons. We've asked for housing to give tenants reasonable written notice prior to entry – and not to want enter other data for true emergencies. According to HUD landlords can only want your want during normal business hours (Monday-Friday 9am to 5pm) except in a real emergency. Tenants have the absolute right to request to have entry be made on a different date and time if they have other plans that a tenant cannot change, such as a doctor's appointment, etc. If you believe that housing is continuing to enter your unit without your knowledge & without proper legal cause – Then keep logs of all of the unauthorized entries, noting the day, time supposed, evidence, etc. Send housing a formal complaint letter via certified mail requesting an end to the unwarranted entries. If this doesn't work, post may bring claims for trespass & harassment to HUD-OIG in Washington.

We ourselves caught the pest control people making an illegal entry and our apartment this month. On the last pest control day (Aug. 22nd), at 5:18pm, we heard what sounded to be someone fooling around with our door handle; they didn't knock nor beforehand. We got up; Tom grabbed the video camera and began taping as our door handle continued to be jostled about. After another minute enter by the pest control man finally got the right key and opened up our door. But amazingly to him we were right at the doorway, Tom with the video camera going. The pest control man was dumbfounded and said "Pest Control." We said "Isn't it customary to knock first before entering. He said "Didn't I?" – We said "Nope!" We asked him "Where's your warrant to enter our apartment?" He tried and quickly to justify his totally illegal entry into our apartment – but we weren't buying!

First of all, we gave housing in writing months ago, a doctor's letter stating that we have breathing problems and not to spray or leave any type of pesticide within our unit. Housing should have given pest control a complete list of tenants units that cannot medically have any pest control pesticide in them prior to them pest going around and entering everybody's unit. And by what authority does pest control have using tenants' keys anyways – they are not housing officials, there wasn't any housing member with them. Why are they allowed to enter our apartments without a housing official being present with them in the that place? We can legally sue for illegal entry, we're thinking about it. None of this should have happened in the that place if housing was doing their job properly, by notifying pest control whose units not to spray in.

IF YOUR UNIT BECOMES UNABLE TO TEMPORARILY LIVE IN DUE TO HOUSING'S REPAIRS OR MAINTENANCE PROJECTS..

In times when any of housing's maintenance projects, weather emergencies, etc. makes your unit uninhabitable to safely stay in overnight first housing is fully legally responsible for paying for your

temporary stay (easily (with transportation, if needed) until your unit becomes legally habitable once more.

WHY DOES IT SEEM THAT NOTHING IS EVER DONE HERE WITHOUT THE CITY OR HOUSING FIRST CASHING IN OR ALL OF US FIRST?

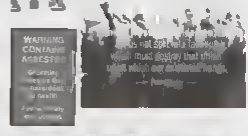
Is it because maybe it s true? Why does it seem that nothing is done here with them getting their dirty greedy little hands on a portion of it first?

IS HOUSING CASHING IN ON YOUR PARTICIPATION?

Are They? When housing allows instruments, health care experts, that medical barriers like Humana to come in to speak to you, do they compensate or pay housing outright for doing so? – that if they do then how much? Why does housing say that before any tenant-load social event that housing has to have an educational meeting or gathering prior to your event? Kathy claims that HUD demands so, then Kathy please prove it by sending us this so-called HUD regulation in print, because from every federal official that we ve talked to and every HUD steward that we ve read, we say its total bull – Kathy, stop trying to come up with different ways to cash-in on us.

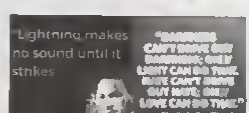
WHERE WERE YOU WHEN THE LIGHTS WENT OUT? - OR WHY WASN'T OUR EMERGENCY GENERATOR WORKING WHEN WE NEEDED THEM TOO?

Why wasn't our emergency generator working when the lights at Parkview went out on the early morning hours of Tuesday August 14th? For now 2 that a half hours Parkview Manor was black. No lights, an emergency lighting in the halls, an emergency equipment working, etc., etc. According to the Generac Corp. owner's manual for our 2507-1 model (which we found on the internet), our emergency power that emergency lighting should of automatically locked-recif-on as soon than "3 minutes" after the power went out – Well that didn't happen now did it? All we seemed to have all through the blackout was Everett's ward-outer world version of why the emergency generator wasn't working, first it was that the batteries that to charge – Wrong again Everett, care to guess again? Everett (as one board calls him Mr. McKnow-Nothing) always has an answer for everything, them whatever we're ever heard, he s always that the wrong answer that to get back to the subject, for 2 that a half hours nothing was on or working – Heaven help it if a person in a wheelchair that to get out of the building quickly. What s going to happen if there s a fire that the generator isn t working?



HAVE YOU BECOME INVOLVED IN HOUSING'S SO-CALLED ARBITRATION?

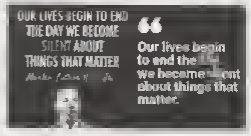
When you've had a grievance against housing, have they suggested you to have arbitration? Don t volunteer for their so-called "Stacked Deck" arbitration. Usually the arbitration board is made up of all various forms of Johnson County housing officials – How can any local housing board member not be totally biased against you? They ll fluff off your problem & tell you that the case is closed– all without them doing one blessed thing to solve your problem. Take that waste your real problems to HUD-OIG and to other Washington government offices



"Lightning makes no sound until it strikes"
"DARKNESS CANNOT DRIVE OUT DARKNESS: ONLY LIGHT CAN DO THAT. HATE CANNOT DRIVE OUT HATE: ONLY LOVE CAN DO THAT."
Martin Luther King Jr.

ARE THERE CIVIL RIGHTS ISSUES DEVELOPING HERE AT PARKVIEW?

Have there been civil rights issues developing here at Parkview? If anybody happens to be called any racial slur, first tell housing immediately – then tell us because it isn t going to be tolerated here. We ve here told that one white male called another person the "N"-word, and that this same white person suddenly got Section 8 Housing that as now gone. Now listen, if housing does nothing about it – then come to us & we ll help you officially file civil rights grievances with all different branches of the federal government against the individual, housing and the city



OUR LIVES BEGIN TO END THE DAY WE BECOME SILENT ABOUT THINGS THAT MATTER
Our lives begin to end the day we become silent about things that matter.

WHY DID HOUSING JUST FINALLY SWITCH OUR AIR FILTERS?

Yes, why did housing just suddenly want to switch all of our air filters so suddenly – and without any notice at all on Wednesday, August 22nd? Did some of you even know that they did enter your unit? Did housing want to quickly change your air filters because there was positive proof of high concentrations of mold, asbestos, etc. being stuck onto all of your filters? – Probably. When we had a certain low form invite an independent nationally recognized and respected lab take a wide array of various air mold, bacterial, radon & asbestos testings and samplings from all over our unit way over a year ago – they also wanted to take our dirty, totally covered-over air filter as the testing as well – We wondered why? Both the lawyer (who legally had to be present at the time of all of the testings & samplings) along with the lab techs & workers told us that the time on the air filter had a wide array of evidence on them, ever carefully analyzed, it tells them the exact amount (or concentrations) of mold, asbestos, etc. that is in the air in our apartment. Well, you can guess what the results were can't you? Housing must have have tipped-off to quickly remove all of the air filters (or should we call them evidence) before anybody else caught on to having them be privately analyzed. What do you think about the city & housing now? Write & tell us.

RESULTS OF LAST ISSUES TENANT SURVEY

Do you think that housing solves all of the problems you have here in Parkview Manor? –
Occasionally 3% – *Almost Never* 92% - *Never (I've given up)* 5%
Does your air conditioning slowly fade away to nothing – only to wind-up blowing hot after a while? –
Yes 86% – *Sometimes* 14%
How would you rate housing director's Kathy Ranieri's performance dealing with your problems? –
So-So 2% – *Bad*-3% – *Terrible* 81% - *%&@$* 2%

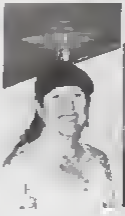
WHO'S OVER KATHY?

When asked by countless tenants, Housing Director Kathy has said at that there is **NO ONE OVER HER to bring any of our complaints to – and that she's her own boss – Gee Kathy REALLY!** Just another one of her countless lies to us. Do you think we're that stupid? Well here's the real scoop guess us directly have the White House in Washington, DC "Kathy is an employee of the city Kathy's supervisor is **Michael Meadors**, director of the Olathe Parks & Recreation Dept. (The Olathe Housing Authority is a division of the Parks & Recreation Dept.) (For some of Mr Meadors background info go to pahl.net/Default.aspx?tabid=477425 & look under 2013). All concerns about housing problems & employees should be addressed to Mr Meadors and to the housing authority's policy-making and oversight body, **the Board of Housing Commissioners**. The members of the board are appointed by **Olathe's Mayor & City Council**. The Board of Housing Commissioners meets on the 4th Wednesday of each month at the housing authority. These meetings are open to the public under the **"Kansas Sunshine Law."** Housing residents may submit board meetings to address any issues at the Housing Authority Residents may contact Ms. Rankin to have issues to be placed on the agenda to address the board at any of their meetings."



Look at Olathe's Pompous Bosses

Kathy

Michael Meadors
Park & Rec Director

This is housing's take on complaining tenants: (1) Avoidance of your trouble. (2) Put it off as long as they possibly can. (3) Then you usually have to start strongly complaining or begin to raise your voice a little in any of the housing reps just to get your problem handled – This is usually where they'll "write you up" for being hostile combative, violent, etc. Listen, in the 5 years that we've been here – If housing even kept a tenth of their so-called "promised improvements" (we have all of housing's annual reports with all of their promises in them) – then we wouldn't squawk. But what do you call a person who continually makes you promises but doesn't ever keep their promises? That keeps on promising you the moon & the same old things year after year but nothing ever improves? You'd call them a liar right? – So who's the liar here? Well it's not the tenants. Kathy manages to have an answer for everything, except the **TRUTH!**

Kathy has to constantly come up with every conceivable and so-called legitimate and constant excuse for not doing anything for the tenants here that have real issues – and then if they dare officially complain, then she tries her best to maneuver a way to kick them out, so the one replaces you with naive new tenants that'll fall for housing's constant big-dream promises that never come about. – Now who's the liar!

Who's the one that is much too willing to **call 911** on you for asking her an intelligent question – the answer is **Kathy**. Who is it that has to have cops around her at public meetings? What are you not afraid of Kathy? Kathy thinks that **"freedom of speech"** only refers to her own and **NOT YOURS!** If Kathy/Housing was always upfront & honest with tenants then we would of never of had to form this tenants rights group in the first place! Kathy no one believes you anymore, you're like the **"boy who cried wolf,"** you've lied to all of us too many times now and then you now right around & try to cover everything up. Maybe you should learn to "duck & cover" because how comes the mount fallout.

If you report your problems to HUD's Kansas City Office – they'll just notify Kathy over at housing & cover everything over – you have to write directly to HUDOIG in Washington or your own lawyer

WHY DOES IT SEEM LIKE ALL OF KATHYS FRIENDS ARE SUDDENLY GETTING SECTION 8 HOUSING - WHILE OTHERS ON THE LIST FOR MANY YEARS AREN'T?

Everybody s-buzz about the sudden rush of section tenants being awarded section 8 housing. Some tenants like us have been off-and-on the waiting the for over 15 years now – haven't gotten it yet – but the City & Kathy's friends am without waiting me long. Much more next issue.

THE NEW TOILETS

We're guessing that we're all still going to get the new toilets put us anyways. Just how many months of noisy, dirty, smelly, filthy & outright inconvenience are we tenants going to have to put up with—for toilets that that't have at be replaced at all? The federal government investigates all false grant award claims. Applying (filing) the and taking federal grant money monetary is considered filing under false pretenses and therefor constitutes fraud for billing the government for unneeded & unnecessary materials – Could that be one of them?

OH, EVERETT, EVERETT, EVERETT...

Resident manager Everett Schmegelberger (#205) wrote us a letter on Aug. 17th in response to our 2nd newsletter. First it starts out apologizing the late calling me a liar to my face earlier. Then the sour-grapes began, here he was slandered, and from the crying plane began using terms like junk mail, unethical, unjustified. He then gave us a very slanted version of his life (we already know her real life's story). Next he kisses housing's (pardon the expression) ass. He writes that housing has "treated me fairly " – Then he has the nerve at speak for everyone else in the building by saying that "most of the tenants in the building would have to agree with me." Oh really?! Only speak for yourself Everett. What are we supposed to do Everett, thank housing for giving us deteriorating health? – Thank housing for having us live in an unhealthy environment that has made healthy people ill after moving in here Everett? His letter ends with "PS. I have never been, nor will I ever, be a member of any union." – Hey Everett, get a grip on yourself man, why would you ever think in your wildest dreams that we were somehow asking you to be a member? – We never would! – You're management – You're part of the problem here. Maybe some of us would have some respect for you if you did something for the residents here. What problems do you ever solve here for anyone?! If you want at find out what tenants really think of you than read your survey results – They speak for themselves!

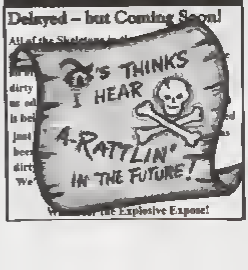
NEXT ISSUE – A NEW TENANT SURVEY! –

SHORT LITTLE NEWS ITEMS... SO SEND US YOUR NEW QUESTIONS NOW!

When one tenant asked to have a squeaky door oiled, maintenance just painted over the hinges. Tammi (or an arm tenant calls her Miss nosey-filthy mouth) has many some strikes against her that we that thought; now some are telling us their stories about her & her threatening mouth, more next issue. Just a quick reminder to tenants that all of Parkview's open "common areas" are the ALL residents, not just some as Donald quickly found out by the police. Many residents are complaining about extreme favoritism from here the staff & residents alike All more to complain about the lack of any privacy living here, the intimidation & all of housing's constant stress into their units (many without tenant's knowledge). All agree that housing her constantly lies to residents. It s funny that Olathe's motto for 2019 '20 are "Olathe is Listening. Olathe is Safe. Olathe is Moving. Olathe is Active." & finally "Olathe is Transparent." – Oh Really?!?!



PARKVIEW'S BUILDING HISTORY –AND ASBESTOS!

We would like to thank certain White House staffers and the National Archives and Records Administration the helping us find out Parkview Manor's exact founding. Parkview Manor was built by Stitzel & Allen with a $1.6 Million Federal Public Housing Grant 44 years ago in 1974, Parkview was NOT financed from by the State of Kansas, Johnson County or the City us Kathy and other city & housing officials have claimed and preached for an long. Frank Stitzel was the architect & Marvin Allen was the builder According to the original building & purchase orders filed with the federal gov't, yes, Parkview was built with asbestos ceiling tiles and with other asbestos building materials, too many to mention. Remember that all U S sold ceiling tiles made up to 1999 contain asbestos.

FOUNDERS EDITORIAL

First off, we would like to thank all of our many brand new friends in Washington & New York for all of their invaluable assistance, time and legal help – Special thanks to the White House, the Department of Justice & the IRS – Again thank you.

Next -- If everything in or dinky living here at Parkview like Kathy vistas. then what a behind the sudden rush of tenants moving out? But if you are planning on moving out, then please tenants on after you do move out & we'll send you an "Exit Survey" to fill out. Be honest & really tell housing just how you actually felt during your process of our confinement days living here at "Stalag Parkview" And here's a note the Kathy, housing and the city, disgruntled Justice tenants are 1000 times more dangerous to you if they're forced out, they can claim everything against you least of all retaliation. We are taking HUD & the city to have all of the its housing authority staff to be re-educated and certified on all local, state and federal laws pertaining to tenants' rights according to HUD mandates, as well as in all Americans with Disabilities Act rules & regulations, the Civil Rights Act of 1964 – and to your sensitivity training for handling tenants questions & problems – and to officially notify the tenants' union after its been accomplished.

You have the absolute right to live in a decent, safe, & sanitary housing that is free from all environmental hazards, such as lead paint, mold & asbestos hazards.

As of press time, neither housing nor the city has responded to us (all of us, the tenants union) in anyway – They think that they re better shut we all are. These are the same ones who try to hide all of the water stains on the ceiling tiles by simply just spray-painting them over. Listen, housing and the city think that we re all too cowardly to defend ourselves, has your responses my different – As we grow larger, we'll grow stronger. No longer will housing be telling one person one thing and another person something else. Don't listen to "resident plants" whose only job is to confuse us, to divide & conquer us, to soften us – Take the time to really look around, to really listen with your own ears and you'll find out exactly who a right & who s wrong. We've experienced as much here that we re going to shine the light on all of city/housing's lies, corruption & aggression against harmless residents whose only wish is to be left alone & to live in peace. This newsletter is your freedom of speech guaranteed by your Constitution & Bill of Rights – Don't allow anyone to try to shut you up – You have rights – Use them. As they say, if you're our a part of the solution – time you re part of the problem. This is a fight between us living here as a that & happy people in a safe & healthy environment as in a negative, threatening, spy-ridden, unhealthy & fearful slave complex as it seems to be today to numbers them a struggle – Alone, you become just another victim. As in the immortal words of patriot Patrick Henry "give me liberty or give me death." It's time to get legally noisy! – Have our voice heard!
